EXCESS WORKERS' COMPENSATION BUFFER LAYER PROGRAM

Gray Specialty provides buffer layers of excess workers compensation coverage to qualified self-insureds, self-insured groups, joint powers authorities, and associations. Self-insured retentions as low as \$100,000 and limits of up to \$1,000,000 are available.

Our program is designed to seamlessly fit below the attachment point of the insured's specific excess workers compensation policy and provides a layer of coverage down to a retention level chosen by the insured.

Statutory
Excess of \$500,000

\$250,000
Buffer Layer

\$250,000
Self-Insured Retention
